# Introduction

The following guide provides a breakdown of tuition and fees on a semester basis for most master programs at the USC Sol Price School of Public Policy. For information on estimated indirect costs (e.g., housing, books, supplies, etc.), please refer to the [standard master cost of attendance](#) provided by the USC Financial Aid Office.

Tuition and fees are based on rates for the 2023-2024 academic year and may change for future terms. The information provided on this guide is also based on standard course sequencing for full-time enrollment and amounts may differ for students who plan to enroll in more or less units than indicated on this guide. The costs listed also do not include health insurance nor tuition refund insurance costs.

While we make every attempt to provide as much information as possible to help students anticipate their program costs, please note that actual costs may vary depending on a student's specific situation.
