Progressive degree program students must fulfill all the requirements for both the bachelor’s degree and the master’s degree. The total number of units for the master’s degree, however, may be reduced by a maximum of one-third. A minimum of two-thirds of the units required for the master’s degree must be at or above the 500 level.

The progressive master’s degree can be reduced by one-third, depending on prior coursework completed and department approval. Examples: A 30-unit program can be reduced to 20 units. A 32-unit program can be reduced to 22-units (round up from 21.33). A 48-unit program can be reduced to 32 units.
